

PRODUCT SAFETY POLICY

The Sherwood Press will take all reasonable measures to respect the materials that the company uses to produce the various products within its portfolio.

This will include ensuring that the materials are handled and stored correctly in all of its operations.

In the case of Food Packaging, materials will be stored and used in line with the requirements of BRC/IOP Standards.

The company undertakes the following steps to ensure product safety:

- Senior Management Commitment
- Hazard and Risk Analysis
- Internal Audits
- Specification Checks
- Traceability
- Housekeeping and Cleanliness
- Process Control
- Training
